

Cloud Engineer

[Apply Now](#)

Company: Spirii

Location: Copenhagen

Category: computer-and-mathematical

Spirii develops and provides world-class charging products and digital solutions to customers with electric cars. Our Digital Development department is proud to drive a **listen, learn, and lead** culture that allows us to improve our working methods constantly.

As a Cloud Engineer, you will help our engineering teams embrace the DevOps mindset while designing and maintaining our cloud architecture, ensuring high availability, scalability, and security. You will report to our Engineering Manager and work closely with internal and near-shore colleagues in our Engineering Teams.

What You Will Do

Together with your team, your key business deliverables will be:

Cloud infrastructure strategy and architecture

Ensuring high reliability, performance, and scalability of our platform

Participate in an advisory role for Tech Leads and Software Architects Application Architecture Design

Designing efficient CI/CD tools and processes

Ensuring that systems are safe and secure against cybersecurity threats

Support the engineering teams with tools to ensure an agile and secure SDLC

Working on ways to automate and improve development and release processes

Troubleshooting and solving problems in IT infrastructure and CI/CD tools

Enable monitoring of health and performance of our production infrastructure setup and team enablement

Documentation of IT infrastructure, tools and processes related to development and deployment

Developing and implementing processes for incident management and disaster recovery

Who You Are

Enjoy exploring innovative technologies and continuously expand your skill sets while educating others

Convey the DevOps mindset & disciplines to the Engineering Teams and drive enablement through knowledge sharing

Ambitious for our customers, company, and yourself while focusing on excellent execution

Have a high sense of ownership in your work

Are an excellent communicator and have the ability to interact with all levels of an organization

Passionate for delivering high-quality software solutions

Care about how your work and attitude affect those around you - you are an active participant in technical activities and create an open and friendly environment in the team

Qualifications

The ideal candidate has relevant experience with the development of digital cloud-based solutions in an agile start-up / scale-up environment.

We further look for a candidate with the following experience:

Bachelor's degree in computer science, Software Engineering, or a related field (or equivalent experience)

4+ years of professional experience from a similar role

Excellent troubleshooting skills

Experience with:

Agile DevOps processes and tools.

Terraform or similar infrastructure automation tools.

Development of cloud-native SW products and microservices.

AWS cloud platform including security architecture.

App deployment (Apple and Google platforms).

GitHub, containerization, and Kubernetes (EKS).

Linux/Unix servers, scripting, and network communication.

Configuration and management of databases (SQL and NoSQL).

Common monitoring platforms like Prometheus, Grafana, Datadog, CloudWatch, etc.

Knowledge of programming languages like JavaScript, Typescript, PHP, Python is needed

The position is a permanent position in Copenhagen, Denmark. Danish language is not a requirement, but Fluent English language skills are required.

Benefits

It is important for us to create a healthy, diverse, fun, and creative working environment, so besides all the basic benefits, we also focus a lot on social activities, flexible working hours and a good work life balance.

Competitive salary and benefits package, along with a company pension plan

Opportunity to work in a high growth industry and make a significant impact

Collaborative and inclusive work environment

Two innovation days per month for YOU to choose what you work on

Professional development opportunities and growth potential within the company

Excellent office coffee (we mean it!)

About Spirii - Who We Are

Spirii is a full-service e-mobility provider which offers hardware and software charging solutions to companies in the private and the public sector. Spirii was founded four years ago as a company. Nevertheless, the people in Spirii have extensive experience working with electric cars and charging, as well as the development of future transport- and energy systems.

Spirii is an equal opportunity employer. We encourage applications from candidates of all backgrounds and experiences. Spirii strives to create an inclusive and diverse workplace, and we encourage all qualified applicants to apply regardless of age, gender, race, sexual/religious orientation, or disability.
