

Flutter Mobile Developer at new Human-Centered Social Network Startup

[Apply Now](#)

Company: Jobly.fi

Location: Denmark

Category: other-general

At Lifebonder, we're on a mission to break social media addiction, fake personas, cyber-bullying, cancel culture, and loneliness by providing a Mesaverse that lives up to the promise of what social media can be: A safe place to facilitate human connections rather than replace them.

We want to make the world a better place by filling a growing need for direct socializing outside social media - connecting people in friendships that are human, profound, and meaningful. LifeBonder makes it easy for people to connect in a deeper reality through shared spaces, values, and goals because our vision is to build social bonds in real life.

What we are looking for

You'll work closely but remotely with the current team to develop a **state-of-the-art** mobile app. You are a Google Flutter coding genius (or close enough) and a quality-conscious developer who considers your work as a craft where there is no compromise on quality. It is natural for you to insist on delivering the best solutions according to Best Practice.

Responsibilities

You'll work with the development team to build our social media app using Google Flutter.

You'll be developing new code and features in Google Flutter and Dart.

You'll have an influence on the development of the product.

Skills

You're a recent graduate junior, senior graduate, or senior developer in the field of

Google Flutter programming with a passion for visually appealing mobile app design.

You can work independently and feel comfortable structuring your own time with little oversight.

You have the ability to translate spoken ideas and rough wireframes and mock-ups into highly appealing mobile app designs.

You are a strong communicator, comfortable with working remotely and in person.

You're excited about new challenges in mobile app development.

What We Offer

We are a team of endlessly dedicated developers offering a fun and friendly work environment where everyone is equal.

We offer real-world work experience and exciting challenges where you can make a real difference.

Awesome recommendations and when you're ready to move on, we've got your back.

Full-time hires at a later date and potential for Equity in the company.
