

## Service Engineer

[Apply Now](#)

Company: TKH Airport Solutions

Location: Nykøbing Falster

Category: other-general

### Your mission

Are you ready for an exhilarating career working with customers worldwide in the captivating world of airplanes and airfields? We're seeking passionate individuals who thrive on providing top-notch technical support, no matter how challenging the problem. Join us as a **Service Engineer** and take your skills to new heights!

In this role, you'll work closely with our experienced Service Engineer and collaborate across departments. From remote support to traveling to international clients, you'll be fully immersed in exciting projects. Based in **Nykøbing Falster, Denmark**, this full-time position offers a world of opportunities.

### Key responsibilities

**Problem-solving Expertise:** Identify and resolve malfunctions and customer inquiries through rigorous testing, analysis, and repair.

**Commissioning Support:** Assist in the installation process, both physically and remotely, ensuring successful implementation.

**Technical Sales and Service Support:** Excel in technical sales and service support, internally and externally, building strong customer relationships.

**Training and Documentation:** Provide comprehensive training, instructions, and contribute to product manuals.

Customer Communication: Analyze findings, determine solutions, and keep customers informed throughout the process.

Join our passionate team of global service engineers and let your enthusiasm for aviation and customer support soar. With ongoing training and a supportive work environment, you'll thrive in this ever-evolving industry.

### **Your profile**

Education in Electrical or Mechanical Engineering or similar.

Languages: English and Danish.

Excellent analytical and problem-solving skills.

Good professional communication skills, both written and verbal.

Practical, hands-on mentality.

### **Why us?**

Interested and looking for a challenging yet fulfilling job that will make you proud? Please contact our HR manager Kimberlie Elevelt via +31 (0)88 0280608 or apply directly.

Embrace the challenges and apply now for the **Service Engineer** role. Your remarkable journey starts here!

We kindly request, for this position, applications from candidates who are currently residing in the European Union (EU) or the European Economic Area (EEA). This is due to specific requirements and considerations related to the position. We appreciate your understanding in this matter.

### **About us**

At TKH Airport Solutions, we are committed to revolutionizing the aviation industry by providing sustainable and innovative airfield solutions. We believe that airfields should not only be safe and efficient but also environmentally friendly and technologically advanced. With this vision in mind, we have made it our mission to create green, smart, and safe

airfields that are equipped with reliable, cutting-edge airfield lighting technology that reduces their environmental footprint.

TKH Airport Solutions is one of the operating companies of the Dutch stock-listed TKH Group NV, a leading technology company specialized in the development of innovative, client-centric systems that drive success in automation, digitalization and electrification. Being part of the TKH Group, our company can build on a history of 90 years in smart connectivity, energy distribution and AGL.
