

Service Operations Dispatcher

[Apply Now](#)

Company: Vestas

Location: Videbaek

Category: other-general

Vestas Wind System is the world leader in the wind industry and technologies covering 5 continents and developing new geographical area in green energy. Are you an experienced Planner? Do you want to work in the wind industry? Then Vestas has an opportunity for you!

Region NCE > SBU NCE Service> Service Operation

Vestas North and Central Europe (NCE) is a Sales Business Unit that covers Scandinavia, the UK, Ireland, Poland, the Baltics, Germany as well as Eastern Europe and South Africa. We are responsible for the sales function, projects as well as installation and service of the wind farms in these regions. We aim to be the best performing business unit in Vestas, and we work every day to make Vestas NCE the best place to work.

The service department in Denmark is responsible for service, service sales and maintenance of wind turbines in the Nordic countries. Our department is busy, and a lot of new and exciting things are happening. In order to continue to be effective, we need a good service planner who can navigate an innovative environment with self-confidence and a structured approach to tasks. In the team, there is a good and friendly atmosphere with room for laughter and professional sparring. We have many irons in the fire and experience in our tasks through good cooperation in the team and in the department.

Responsibilities

Planning and coordinating the work of our service technicians out in the field – both short

and long-term planning

Assigning technicians to handle unforeseen faults on the turbines on a daily basis

Ordering spare parts and tools for the service tasks

Ensuring effective internal communication and good relationships with our internal stakeholders

Setting task priorities within specified deadlines

Qualifications

Education or work experience in similar areas within planning, coordination, administration or freight forwarding

Ability to work in a time-sensitive setting

Self-organization

Remote team management knowledge

Good knowledge of the English language

System user of MS Office, SAP and Salesforce

A technical understanding of the wind turbine industry will also be a good starting point for the position

Competencies

Planning and organizational skills

High degree of flexibility

Safety awareness

A good overview and the ability to keep a cool head in busy periods

Works well with changing tasks and being able to prioritize between different tasks at the same time.

Ability to collaborate with a wide range of stakeholders, but also being able to draw a line in the sand

What we offer

An exciting position with good opportunities for development both professionally and personally. We have an open culture where communication and collaboration are keywords for achieving good results. We are all enthusiastic about wind energy and deliver quality solutions to our customers. You will work in an open and professional environment where you will support build a new team. If you become part of Vestas, you will have the opportunity to develop your career in a global wind energy company in a really exciting and growing industry.

We offer you a good collective agreement, where there is a discretionary account, a good pension and a comprehensive health insurance.

Additional information

Location: Videbæk, DK.

We look forward to seeing your application as soon as possible, as interviews will be held on a regular basis. We amend or withdraw our jobs and reserve the right to do so at any time, including before the advertised closing date. Please be advised to apply on or before the th of May 4. All inquiries are treated confidentially.
